Version 4.0**

Logging In

To access the Saubon Synogen™ Projects Catalogue, click the **Log in** button on the landing page. The login dialog as shown in fig 1 will be displayed.

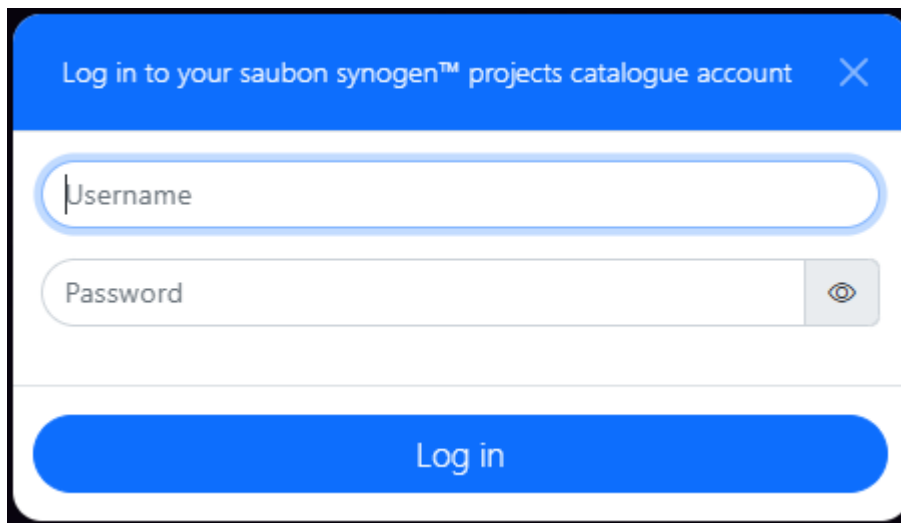

The image shows a login dialog box with a blue header bar containing the text "Log in to your saubon synogen™ projects catalogue account" and a close button (X) on the right. Below the header, there are two input fields: the first is labeled "Username" and the second is labeled "Password". The password field has a small eye icon to its right, used for toggling password visibility. At the bottom of the dialog is a large blue button labeled "Log in".

Figure 1

Enter your **Username** in the first field. Usernames consist of capital letters and numbers only (e.g. A1039260). Enter your **Password** in the second field. All passwords are case sensitive. Click the eye icon to the right of the password field to toggle password visibility.

When both fields are completed, click the **Log in** button to access the application. If your credentials are valid, you will be directed to the main application interface with a personalised greeting displaying your name (e.g. *Good Morning :- David Egan*).

If your login is unsuccessful, check that your username and password are entered correctly. If your account has been suspended by an administrator via the **Deny Login Access** privilege, you will not be able to log in. Contact your system administrator to restore access.

To close the login dialog without logging in, click the **X** button in the top right corner of the dialog.
